Highway 580 connector to U.S. 101 closed this week

The California Department of Transportation (Caltrans) today announced that the westbound Highway 580 connector ramp to U.S. 101 northbound will be closed to through traffic from mid-night to 5:00 a.m. on the evenings of November 27. The traffic will detour at Belham Blvd, down Francisco Blvd East, and back on to U.S. 101 at Erwin Street.

The closure is necessary so that Caltrans contractors can continue the work on the Gap Closure Project, which will provide a continuous High Occupancy Vehicle (HOV), or carpool lane, through Marin County.
